

Rockwell Parts

Rockwell Part - The company of AxleTech International is a large supplier of specialty vehicle drive-train systems and parts along with off highway vehicles. They take great pride in being a preferred supplier to their customer base. AxleTech strives to meet and exceed their customers' expectations for delivery, quality, service and technology. They believe in working within an environment which encourages the highest integrity with empowered collaboration, along with a persistent pursuit of results.

AxleTech International is a General Dynamics business. They believe strongly in actively utilizing principals of ecological safety and stewardship in how they do business. The business has put different programs in place so as to articulate these values in their business policy. AxleTech gladly shares this policy and welcomes interested parties to offer them with any questions or comments, since they are happy to promote and share this policy with a greater understanding of their efforts. They are extremely devoted to preserving and improving the surroundings. AxleTech has an EHS program which not just protects the natural world but which also actively protects their neighbors and employees also.

AxleTech specializes in the manufacture and designing of planetary axles for both commercial and military applications, that could consist of anything from airport ground support to construction equipment. They take great pride in being an innovative drive-train solutions provider as well. AxleTech particularly designs axles to meet certain application demands. They have more than one thousand different axle specs in their present offering. With more than 100+ years of history and experience, AxleTech proudly supplies the most complete solution for whichever of your axle requirements. The business is well known in several military and commercial applications. They provide complete axle assemblies utilized for aftermarket replacement needs, together with servicing axle requirements for OE production. Their high mobility ISAS have added details that could be found in the "ISAS" product collection.
